## EWA Network Acceleration Programme

### Financing Audiovisual in Times of Transformation

The audiovisual sector is undergoing dramatic changes in the way content is produced, distributed, and consumed. The COVID-19 pandemic has accelerated the digital transition of the sector and highlights mismatches between existing financing instruments and actual financing needs in a deeply transforming environment. This is the moment to reassess the value proposition of audiovisual content and to identify arising financing and investment opportunities.

The Acceleration Programme 'Financing Audiovisual in Times of Transformation' offers female entrepreneurs in the European film and television industry a tailored support for re-evaluating not only their audiovisual projects but their companies as well.

By enabling participants to create suitable alternative financing options the programme will lay the foundation for improved strategic business and financing decisions, ultimately for building sustainable audiovisual companies and lucrative professional careers.

The sessions are designed in form of impulse and workshop presentations, of group- and homework and intensive individual mentoring rounds. The programme will be held in English and is designed to entirely take place on-line.

In September (6,7,14) the module A: **Changing the Mindset. Strategic planning.**

In October (13th)/November (8, 9, 22, 23), the module B: **How to Pitch to Investors.**

All described modules of the programme build on each other and aim to prepare participants to pitch their projects or companies to public or equity investors. Identifying and maximising participant's value proposition in times of a transforming audiovisual sector lies at the core of the acceleration programme.

Modules can be taken separately. You do not need to take module A to enroll yourself into module B

## PARTICIPANTS

A maximum of 10 participating companies/people. Participants can bring a single project to the workshop or a slate of projects which they like to raise alternative financing for. They can also look for corporate investment for their companies.

In the course of the training, they will have developed:

- a clear understanding of their assets and values
- a mission statement for their company
- a business presentation for a 5 min pitch to e.g. investors/financiers/corporates
- practice in pitching online

## MODULE B: How to Pitch to investors?

October 13 from 10 to 12h (CET)

November 8 from 10 to 12:30 (CET)

November 9 from 10 to 12:30 (CET)

November 22 from 10 to 12:30 (CET)

November 23 from 10 to 12:30 (CET)

### Presentation : 'Investor Pitch'

- Why do we need Investor Pitch Decks?
- What are logic and structure of a 5 mins Business/Investor Pitch?
- How does it help us to attract alternative financiers?

Different from creative pitches, the business or investor pitch covers more than the content-related focus by including e.g. key decisions around business development, marketing strategies and revenue expectations.

The presentation will introduce the organisation of the Investor Pitch and offer participants all the tools they need to create their own Investor Decks.

Afterwards partakers will build their Investor Deck by using the template discussed in the workshop. This deck will serve as a professional starting point for them when initiating important finance and investor discussions.

### Test Pitches. Two rounds of Group pitches

We will hear partakers business presentations in two group sessions. The whole group and the expert will give feedback on each 5 min investor pitch and suggest improvements for about 20 min.

After this first round participants have time to amend their decks and to present their advanced version in a second group session for feedback and comments.

The goal is to finish this acceleration programme with a ready investor deck for projects and/or companies and to know how to create a compelling business presentation that attracts financiers and investors as well as co-production partners and industry allies.

## ELEGIBILITY MODULE B

Audiovisual production, marketing, sales, and (digital) distribution companies, digital AV platforms, as well as companies in AI, XR, blockchain, film-technology, post-production and CGI.

Registered companies with a track record of a minimum of **2** years

### Price

€ 225 (EWA members)

€ 325 (Non members)

## HOW TO APPLY to Module B?

Send these 3 elements listed below to **contact@ewawomen.com** before October 2nd

Please, indicate in the subject : *Acceleration Programme Module B*

## MODULE B

Your CV

One page motivation letter indicating clearly your proven track record in the audiovisual field and why you need this specific training.

Questionnaire attached

**By October 11th we will reveal the selection**

## The Trainer: Juliane Schulze

Juliane Schulze, Senior Partner at [Peacefulfish](#), is working in the creative industry since more than 25 years, providing business services to the audiovisual industries. As Executive Advisor, she holds an extensive cross-industrial knowledge, specialising in financing and business consulting for audiovisual companies and entrepreneurs in the creative and cultural industries. She is also member of the board of Media Deals, a pan-European investor network being constituted of business angels and early-stage venture capital funds focusing on creative industries and digital media. Since its creation in 2008, Media Deals has been promoting and encouraging early-stage equity investment in high-growth startup companies at the crossings of the audio-visual sector and digital technology as well as cutting-edge media content technologies. Media Deals is a member of EBAN, EBN and NEM.

As trainer and moderator, Juliane holds workshops on access to finance and entrepreneurship at investment and innovation forums, at business training events, as well as at leading business incubators. She is a strategic advisor for European funding institutions and development agencies and is a veteran project director of several EU-projects focusing on accelerating creative and digital businesses through innovation programmes. She developed international media positioning strategies for countries and regions e.g. in Asia, across Europe and in the United Arab Emirates.

Juliane is Director of the MEDIA supported investor training programmes ENTER Europe, guest lecturer at Freie Universität Berlin, teaches Creative Entrepreneurship at the MFG Academy, chairs EBN'S 'Cultural, Creative and Digital Special Interest Group' as well as the Creative Business Cup's Investor Panel and is Member of the Advisory Board of the H2020-project InvestHorizon. Previously she headed the Multi-Platform Business School, lectured at the Media Business School and teaches at various international audio-visual labs, markets and business summits.
